DIVISION LIAISON INFORMATION

Why Los Alamos National Laboratory Hires Students

Hiring student interns is an institutional goal for Los Alamos National Laboratory (LANL, the Laboratory). Hiring students helps LANL develop a talented workforce to meet the current and future needs of this ever-changing organization. These student interns will become the next generation of experts in their fields.

What Is a Liaison?

- A neutral and essential resource
- Works with mentors to prepare for the arrival of students
- Adds value to students' experiences
- Links students to needed resources
- Makes the Lab more manageable for students to focus on research and learning
- Connects students to teams, Divisions, LANL, and the surrounding community
- Plans and coordinates division-level student activities
- Assists with the student's transition before departure

Liaisons are not

- Academic advisors
- Mentors
- Attorneys
- Ombuds representatives
- Professional therapists or counselors
- Human Resources representatives

PROGRAMMATIC INFORMATION

Preparing for Your Student to Arrive (Mentor)

Mentors can prepare for the student's arrival by doing the following things:

Perusing the new education website section for mentors at

<http://int.lanl.gov/education/mentors/index.shtml>;

Developing and submitting the Student Workplan, which is available on the web at <https://spi-internal.lanl.gov/spi/mentor>;

Reviewing the Student Posting Initiative, which can be found on the web at <https://spi-internal.lanl.gov/spi/mentor>; and

Ensuring that the student will have the necessary tools to conduct his/her work (i.e., office space, desk, phone, computer, etc.).

Student Workplan

The Student workplan defines the type of work that will be accomplished during the student's appointment. It provides a description of the work assignment and projects, along with the necessary skills and educational background needed to perform the research/work. The workplan is used as a tool for both the mentor and the student to establish a clear, mutual, and meaningful educational Laboratory experience. (See page 25 for a sample.)

To submit a workplan, go to <https://spi-internal.lanl.gov/spi/mentor>.

Workplans are required for all new, returning, and continuing students.

Returning- and continuing-student workplans can be completed and submitted on October 1 each year (at the beginning of the fiscal year) or as determined by the student start date.

Selection of an Appropriate Research/Work Project

Selecting an appropriate project before the student arrives is important to a positive work experience. Projects should have the following characteristics:

A defined goal that the student has a reasonable chance of meeting during the appointment;

Sufficient flexibility that the research/work project can be shortened or lengthened depending on the success rate of the student;

Two to three levels or stopping places; and

Demonstrable relevance to the bigger picture of the group/division.

Appointment Types and Terms

High School Cooperative Program

Students in the High School Cooperative Program may work full time during the summer between their junior and senior years and may continue their appointments in part-time status during the academic year.

Students who graduate from high school may move to undergraduate status when documentation is provided indicating acceptance into an undergraduate program.

Undergraduate Program

The Undergraduate (UGS) Program features appointments in both technical and administrative fields. Appointments are available for 90-day summer internships, and students in these programs have the option to continue working part-time during the academic year. The maximum number of years

in the program is six for those pursuing a bachelor's degree and three for those pursuing an associate's degree.

Postbaccalaureate Category

The Postbaccalaureate Category of the UGS Program offers the opportunity to conduct research at LANL to college graduates who have completed a bachelor's degree but have not yet enrolled in a graduate program. Participants may remain in this category for up to one year.

Graduate Research Assistant Program

Appointments of 90 days to one year are available in the Graduate Research Assistant (GRA) Program. Students have an option for renewal based upon program requirements. Students are selected on the basis of field of study, grade point average, and research interests. Individuals may remain in the GRA program for up to three months after receiving a Ph.D.

Post-Master's Degree Category

The Post-Master's Degree Category of the GRA Program offers graduate students the opportunity to continue participating in the GRA program for a limited period of time. This category applies to students who have been awarded a master's degree but have not yet been accepted into another master's program or a Ph.D. degree program. Students may remain in this category for one year. They are encouraged to take classes.

When the Student Arrives

Priority Items

When the student arrives, it is important for the mentor to do the following things:

- Meet with the student and adjust and finalize a Student Workplan;
- Review, modify, and complete the Student/Mentor Discussion Guide, downloading the pdf file at <http://int.lanl.gov/education/mentors/index.shtml>; and
- Introduce the student to other students.

The Students' First Days at the Laboratory

The students' first few days are filled with activities helping them to become familiar with the Laboratory. They participate in New Student Orientation and complete the new-hire process with the Human Resources Division. They are informed of available resources as well as site-specific training that may be required before they are authorized to conduct work. They must also complete General Employee Training, a course that is required of all LANL and contract employees (including students) before they can officially begin working.

New Student Orientation

Summer 2003

Sample Agenda

Day 1

7:30	Foreign National I-9 Process Contact: Rebecca Lafave, 667-0874	Human Resources Visitors and Immigration
8:00	Welcome	STB-Education Program Office
8:10	What is Los Alamos National Laboratory?	John Rhoades, Bradbury Science Museum
8:45	What you can expect from your summer internship	STB-Education Program Office
9:15-9:30	Guidelines for Success	Human Resources
9:30	Break	
9:40-10:40	On-boarding	Wanda Roybal, HR-B : Benefits and Employment Office
10:40-11:40	Compensation and Benefits	Benefits Office
11:40-12:00	LANL Authentication and E-mail Accounts	Computing, Communications,. and Networking Division Networking Division
12:00-1:00	Lunch	On your own
1:00	Report to orientation site to be transported to Badge Office (Badges cannot be picked up early)	Badge Office
1:30	Contact your mentor for instructions	

Day 2

8:00-5:00	GET Training and Testing (LANL Taxi Service to White Rock Pick-up at 7:20 a.m. and return pick-up from White Rock to Canyon Complex at 4:30 p.m.)	White Rock Training Center (667-0059) 35 Rover Blvd. White Rock, N.M. 87544
-----------	---	---

Day 3

Report to work site at scheduled time.

Note: Students being hired on Tuesday and Wednesday will take GET on Thursday.

Liaison Tool Kit

Student/Mentor Workplan Discussion Guide

The Student/Mentor Workplan Discussion Guide is an important form that must be completed by the mentor and student and returned to STB-EPO within **seven working days** of the student's hiring. Continuing and returning students and their mentors should complete this form yearly. This form will ensure the student's understanding of the work assignment and the Laboratory's expectations. (See sample on page 22.)

Expectation Management

Expectation management involves clearly defining the following:

- What is expected of the student during the appointment;

- What the student can expect from the Laboratory, the mentor, and the research/project;

- The timing and selection of the research project.

A mentor who does not pay close attention to these areas is setting the stage for a disappointing experience. Use the workplan and the Student/Mentor Workplan Discussion Guide as tools for providing clear guidelines and expectations.

Devoting Time to the Student

A mentor is a teacher who should expect to spend a lot of time with the student. Students, regardless of status (High School Co-op, UGS, or GRA), need and appreciate time and guidance with a mentor. The mentor should expect that student interns may have many questions. Regular meeting times are important to both the learning and work process and can be addressed on the Student/Mentor Workplan Discussion Guide.

No-Fault Termination of Relationship

If either the mentor or the student cannot meet the goals and objectives that have been outlined, discuss a no-fault end to the relationship. The mentor should first contact you, the division-student liaison, then the EPO-student liaison (Carole Rutten, 665-5194, crutten@lanl.gov) for assistance.

Work Schedule Options

It is important to notify the student of the work schedule options. For example, during the first week, all students are required to work a five-day, Monday-through-Friday, eight-hours-per-day schedule. After the first week, the student may request a different option such as the 9/80 schedule. If the mentor approves, the student's schedule may be modified. Student employees and mentors should have compatible schedules.

Student-Transcript & Salary-Review Process

Changes to the student-transcript and salary-review process have been initiated and will be implemented over the next two years. Changes were necessary to support students better and to ensure that they maintained eligibility as well as progressing academically toward graduation. An initial letter was sent to introduce the process. Please discuss the changes with the students.

memorandum

*Science and Technology Base Programs
Education Program Office (STB/EPO)*

Thru/MS: Allen Hartford, DSTBP, M714
From/MS: Kurt Steinhaus, STB/EPO, M709
Phone/Fax: 7-8680/Fax 5-6871
Symbol: STB/EPO:02-73
Date: December 17, 2002

Student-Transcript and Salary-Review Process

This is the first of several communications you will be receiving about policy changes to be reflected in the Administrative Manual regarding the student-transcript and salary-review process. Changes will be made so that HR and STB-Education Program Office staff members can better monitor student progress, eligibility, degree completion, and salary accountability. The requirements and implementation process will be **rolled out over two years**.

Year One (Fiscal Year 2003 [FY03])

- 1) All returning and year-round students are to submit an updated transcript by **February 17, 2003, to Cynthia Bustos, MS M709, fax 505-665-6871, phone 505-667-1919**. (High School Cooperative Program, Postbaccalaureate, and Post-Master's Degree students are not required to submit a transcript.)
- 2) Salary increases will be effective upon actual start date as determined by HR Staffing.
- 3) Students submitting late transcripts will not be eligible for retroactive salary increases.
- 4) Effective fall semester or quarter 2003, undergraduate students working during the academic year may not exceed 75% work time. (Students involved in the College Co-Operative, Electro-Mechanical Technology, Machinist Apprenticeship, Postbaccalaureate, and Post-Master's Degree programs and categories, and GRA students working on a thesis are excluded.) Exceptions to the work-time or credit-hour requirement will be addressed on an individual basis by the Student Programs Advisory Committee and STB-EPO staff.

Year Two (FY04—Full Policy Implementation)

- 1) Continuing and year-round students are required to submit an updated transcript in mid-February to verify good academic standing and cumulative credit hours completed. They must maintain three-fourths of full university course-load enrollment status.
- 2) Salary increases will be effective upon actual start date as determined by HR Staffing.
- 3) Exceptions to the work-time or credit-hour requirement will be addressed on an individual basis by the Student Programs Advisory Committee and STB-EPO staff.
- 4) Discipline for failure to comply will range from withholding of any pay increase up to termination.
- 5) Transcript submittal after the start date will not allow for eligibility for retroactive salary increases.

More information about the process will be forthcoming and can also be found by checking the student web page (<http://int.lanl.gov/worklife/students/>); the Student News, Student Views newsletter; and the Students' Association web page (<http://sa.lanl.gov>). Mentors and division-student liaisons will also be notified of the policy changes.

Please contact Mindy Mendez at 665-9466 (ajmendez@lanl.gov) or Carole Rutten at 665-5194 (crutten@lanl.gov) about this or any other student program questions that you may have.

Foreign National Students

Please contact the Immigration Services Office for the latest information about foreign national students or student visas. The office can be reached at 667-2738 or 665-0001, and the website address is <http://www.hr.lanl.gov/hrstaffing/VisitorandImmigrationindex.stm>.

Student Benefits

Depending on the type and length of their appointments, students may be eligible for benefits. All benefits questions should be directed to the Benefits Office, 505-667-1806, benefits@lanl.gov. Information on benefit plans can be accessed at <http://www.lanl.gov/worklife/benefits>. Questions regarding vacation, sick leave, and taxes should be directed to the Payroll Team, 505-667-4594.

Travel Benefits

Rules concerning travel benefits for students are very specific. Detailed information can be found at <http://bus.lanl.gov/bus1/travel/regulations/graugsregs.htm>. Questions can be sent to relocation@lanl.gov.

Student End-of-Appointment Responsibilities

Three weeks before the end of the student's appointment, the student should notify the HR generalist, the mentor, and the student liaison regarding any plans for departure. Forms will be initiated to reflect the appointment change of status (to casual, part-time, or off-site). Students should be directed to <http://www.hr.lanl.gov/hrstaffing/terminations> for specific instructions on leaving the Laboratory. Departure procedures include the following:

- A presentation;
- A checkout form; and
- The Student Exit Survey.

Student Exit Survey

A Student Exit Survey form will be provided at the end of the summer. This form will allow students to comment on their summer experience at the Laboratory. Although this survey form will be available, students should feel free to provide comments throughout their stay. The information from the survey will be compiled, analyzed, and distributed throughout the Laboratory. In addition, division-related information will be provided and presented to you, the division liaison. To seek information or to provide suggestions regarding student programs, contact:

Carole Rutten, Laboratory Student/Mentor Liaison
STB/EPO
665-5194
crutten@lanl.gov

GENERAL INFORMATION/POLICIES

Housing Office

Summer housing remains a challenge. In an effort to assist with housing options, you may direct students to the Virtual Los Alamos website at www.losalamos.com or to the Los Alamos Chamber of Commerce website at <http://www.losalamos.com/chamber/> for information on privately owned accommodations in Los Alamos and the surrounding communities.

The Housing Office website is at <http://bus.lanl.gov/bus/housing/>. Housing Office staff members are available to answer questions, and they will continue to work on behalf of students to secure rental agreements. Students with transportation have the most housing options.

Transportation

Students who do not have a vehicle can get around town and commute to the Laboratory by using the Los Alamos Bus System (www.labus.org). Carpool information can be found on the Student Association Bulletin Board at <http://sa.lanl.gov>.

Taxi Service

LANL provides a free taxi service to all Laboratory sites. This service is available to Laboratory employees during normal work hours (8 a.m. to 5 p.m.). Call 667-TAXI to make arrangements. The summer is a very busy time for the taxi service, so please remind students that the taxis are to be used only for official Laboratory business. Taxis will not transport students to their homes or to nonbusiness locations.

The taxi service has established special routes and pick-up times to accommodate the needs of summer students. Tentative schedules are listed below. The departure times are firm. Remember, students who miss the 7:30 a.m. departure time will have to wait until the taxi service can work them into the schedule.

Taxi service accepts calls until 5 p.m. Students who must work late should make other transportation arrangements. The taxi service will not move students around the Laboratory during the lunch hour (11:15 a.m. to 1:15 p.m.) except on official Laboratory business.

Morning Schedule for Student Pick-Up

NOTE: All vans depart their designated areas at 7:30 a.m. and go to the Otowi Building, then go down their assigned routes.

Bradbury (Red Route): Otowi—SM 40—TA 16

Los Alamos Inn (Bronze Route): Otowi—SM 200—SM 34—TA 53

Bradbury and L.A. Inn (Yellow Route): Otowi—Pajarito Road—White Rock Training Center (WRTC)

Evening Schedule

Those wanting to go to the Wellness Center will be dropped off at SM 261 (Otowi). Anyone wanting pick-up from the Wellness Center must walk to SM 261 by 5 p.m.

Routes and Pick-Up Times

Route One

4:45 p.m.: TA 46, Buildings 1, 31, Gate

4:55 p.m.: TA 52, Building 33

5 p.m.: TA 35, Building 86

Route Two

4:45 p.m.: TA 55, Gate

Liaison Tool Kit

4:55 p.m. □ TA 48, Gate
5 p.m. □ SM 34

Route Three

4:45 p.m. to 5 p.m.: TA 53, Buildings 622, 31, 1

Route Four

4:50 p.m.: TA 16, Pedestrian Gate and building 328

Route Five

4:50 p.m.: TA 3, SM 200, SM 40, SM 261

All evening vans will go to the Bradbury Science Museum; the Los Alamos Inn;
and the Pueblo Complex and the University of New Mexico-Los Alamos as
necessary

TA 3 Drop-Off and Pick-Up Points

<u>Work Location</u>	<u>Drop off and Pick Up</u>
Badge Office SM 261 SM 207 Wellness Center	SM 261 East
SM 1888 SM 215 SM 40	SM 40
MSL SM 1586 SM 1567 SM 1551 SM 480	SM 34
SM 1690 SM 200 SM 469 SM 123	SM 123

Liaison Tool Kit

NOTE: If the student's TA-3 work location is not identified, please have the student call 667-TAXI to find out where the pick-up point will be.

Key Taxi Information to Remember

- If the student misses the 7:30 am pick-up, he/she will not be picked up until 9 a.m. because of the heavy volume.
- Evening taxi calls are taken until 5 p.m. Services end at 5:30 pm.
- The time from 11:15 a.m. to 1:15 p.m. is the busiest time for the taxi service. Service is only for those with official Laboratory business.

Harassment

The Laboratory has very specific policies regarding harassment. Harassment is unacceptable conduct and is prohibited. The Laboratory takes measures to prevent acts of harassment; they involve prompt corrective and/or disciplinary action for any act that violates this policy. Please contact HR-Staff Relations (HR-SR), 667-8730, <http://www.hr.lanl.gov> for more details.

Sexual Harassment

The Laboratory sexual harassment policy prohibits sexual relationships involving subordinates or mentees. The policy can be found under Protected Characteristics (AM 711.01). The related resources available to mentors are HR-SR, 667-8730; the HR generalist for the division; the Employee Assistance Program; and the Ombuds Office.

Off-Site Student Policy

The Off-Site Student Policy applies to students who are actively participating in one of the Laboratory's student programs as full-time, part-time, or casual-status interns whose primary work location is not on Laboratory property. Remember, all requirements must be met and approved before work is permitted off-site. Please see <http://www.hr.lanl.gov/hrstaffing/StudentPrograms/offsite.stm> for specific requirements. Off-site packets should be completed at least two weeks before the student's departure date.

DIVISION LIAISON RESOURCES

Student Program Contacts

The role of the program coordinator is to ensure that students have a rewarding work experience. The program coordinator is there to assist mentors and students with needs relating to workplans, mentor/student relationships, policy, exceptions, and other student concerns. Please contact the coordinator if you need assistance.

Arminda (Mindy) Mendez,
High School Co-op & UGS Program
Coordinator
STB/EPO
665-9466
ajmendez@lanl.gov

Claire Mizne
GRA Program Coordinator
STB/EPO
mizne@lanl.gov

Student Posting Initiative

Finding and matching quality students with meaningful co-op and summer internship opportunities is vital to developing the future workforce of the Laboratory. During summer 2002, STB-EPO launched an on-line database/website for Laboratory personnel to post available student internship and/or co-op positions. The database/website, called the Student Posting Initiative (SPI), provides a place for mentors to enter and modify available student positions, to review potential candidates, to search the applicant pool, to view other available positions for possible collaborative efforts, and to create new student workplans. Mentors may access the site at <https://spi-internal.lanl.gov/spi/mentor/>. Cryptocard authentication is required. Additional information of use to mentors can be accessed through <https://spi-internal.lanl.gov/spi/mentor/>. Students may access the external site (Jump Start Your Career) to search available positions and to apply for internships and co-op positions at the Laboratory via the Laboratory's external education website (<http://www.lanl.gov/education/>).

Division-Student Liaisons

Division-student liaisons are an additional resource for students. Each division/group has a student liaison. Liaisons add value to the students' experiences by working with mentors and linking students to needed resources within the division, the Laboratory, and the community. Liaisons help make the Laboratory a more manageable place so that students can focus and be more effective in their work projects.

Student Programs Advisory Council

The Student Programs Advisory Council (SPAC) is composed of Laboratory employees who advise LANL management on student-related issues and policies. The mission of SPAC is to make sure that every student has a positive experience at LANL. The SPAC website is at <http://set.lanl.gov/spac/index.html>. SPAC meetings are open, and student and mentor involvement is encouraged. The purpose of SPAC is to do the following things:

- Serve as an advocate for the quality of each student's experience at the Laboratory;
- Monitor the quality and impact of student programs;
- Ensure effective communication about student programs; and
- Recommend policy changes and initiatives for improvement of Laboratory student programs.

Ombuds Office

The Ombuds Office offers confidential brainstorming, venting, advice, facilitation, mediation, organizational assessments, and referrals for mentors and students.

For more information, contact:

Phone:	665-2837

Students' Association

The LANL Students' Association (SA) has recently gone through some changes in order to benefit all students and to create a stronger group. SA encourages all students to get involved and to express opinions and ideas so that positive changes can be made for students within LANL. It is the intent of SA to obtain representation from all programs, divisions, and groups at the Laboratory that involve students. SA is the known voice for the students and will bring the concerns, opinions, and ideas of the students to the proper groups within LANL. Students must decide their own level of participation, assessing their interests and their time. However, the more involved students become, the stronger SA will be. LANL students are encouraged to keep a close eye on the SA website (<http://sa.lanl.gov>) so that they will know what events, meetings, tours, and social and educational activities are planned.

Students should subscribe to eramirez@lanl.gov to be placed on the list serv for students and to be informed about student events and receive "Student News, Student Views," an electronic newsletter that is distributed biweekly from May through August monthly thereafter.

TOOLS

Student/Mentor Workplan Discussion Guide

ACTION REQUIRED - SIGN AND RETURN TO STB-EPO

This instrument is intended as a discussion aid between the student and the mentor.

This form must be completed and returned within **seven days of the students hiring.**

Please select appropriate category:

- ☐ High School Co-op
- ☐ Undergraduate Student (UGS)
- ☐ Graduate Student (GRA)

Please select one:

(Based on Workplan and degree area)

- ☐ Administrative
- ☐ Technical

Student Information:

Name: _____
Division/Group: _____
Z-Number: _____
Phone #: _____
E-mail: _____

Mentor Information:

Name: _____
Z-Number: _____
Phone #: _____
E-mail: _____

Time Length of Studentship:

- ☐ Summer
- ☐ Semester (non-summer)
- ☐ Year
- ☐ Other: _____

Work hours of Studentship:

- ☐ Part Time
- ☐ Full-Time (40hr./wk)

Work Plan Checklist: (Please initial each item when complete)

Work Schedule

We have discussed not only the 9/80 versus 5/40 work schedule options, but also the expectations for working hours (beginning, duration, and end, each day) which best balances programmatic needs with student/mentor and student/team interaction. We have decided upon the following work schedule (select one):

☐ 9/80 Schedule A

☐ 9/80 Schedule B

☐ 5/40 (M-F)

☐ Other please describe:

* Initial M _____ S _____
 (Mentor) (Student)

Meeting Schedule

We agree on the following meeting schedule (select one)

☐ Daily

☐ Weekly

☐ 2-3 times per week

☐ Other please list: _____

* Initial M _____ S _____
 (Mentor) (Student)

Responsibilities and Expectations Section

We have reached agreement on the responsibilities and expectations section of the Student Workplan. We have discussed the responsibilities and expectations listed and have modified them in the following manner to reflect changes to work assignment.

Comments or Changes: _____

* Initial M _____ S _____
 (Mentor) (Student)

Performance and Learning Objective Section

We have discussed the performance and learning objectives section of the Student Workplan and agreed on the following end-of-assignment deliverable (i.e. technical talk, symposium presentation, publication, website, etc.) Please list and describe the deliverable below.

* Initial M _____ S _____
(Mentor) (Student)

Integrated Safety Management (ISM)

We have discussed “Integrated Safety Management,” and “The Six Zeros,” and the related responsibilities of every employee. (Check off as discussed.)

Safety and Security Policy

- ☐ Define Work
- ☐ Analyze Hazards & Threats
- ☐ Develop Controls
- ☐ Perform Work
- ☐ Ensure Performance

The Six Zeros

- ☐ ZERO injuries and illnesses on the job
- ☐ ZERO safeguards and security incidents
- ☐ ZERO injuries and illnesses off the job
- ☐ ZERO environmental incidents
- ☐ ZERO ethics incidents
- ☐ ZERO people mistreatment incidents

* Initial M _____ S _____
(Mentor) (Student)

Student Long-term career plans:

Student departure date: _____

Signatures:

Student: _____

Date: _____

Mentor: _____

Date: _____

Mail To: Education Program Office, MS-M709
Carole Rutten, LANL Student Mentor/Liaison

Sample Workplan (technical & administrative)

Los Alamos National Laboratory Education Programs Student Workplan

Student Classification: Graduate

Type of Position: Technical

Prepared by: 990990

George Jetson

Date: Thursday, January
14, 2002 5:11:18 PM

Student Z Number: 999999

Student Name: John J. Johnson

School Attending: University of Wisconsin

Group: NIS-2

Division: NIS

Mail Stop: D-436

Anticipated Start Date: 05/06/2002

Mentor Z Number: 990990

Mentor Name: George Jetson

Mentor Phone: 665-0000

Mentor Email: gjetson@lanl.gov

Description of Work Assignment

John Johnson will work on the Orphan Transients project, a project aimed at finding optical transients from gamma-ray bursts for which no satellite trigger has been given. This project is crucial to solving the mystery of gamma-ray bursts, one of the most important problems in astrophysics.

In working on this project, John will learn about many new tools in several disciplines including high-energy astrophysics, machine learning, software engineering, computational science, and high-performance computing.

John will be expected to formulate new ideas and algorithms for finding and classifying optical flashes seen by rapid-response telescopes (such as LANL's Raptor), to write software to process incoming telescope data in real time, and to write software to do machine-learning-based classification of this data in real time.

STUDENT ACTIVITIES

Symposium 2003

Annual Symposium: Highlighting Student and Postdoctoral Research “Championing Scientific Careers”

The Annual Symposium is an opportunity for all students and postdoctoral appointees to present their learning experiences and scientific research. The intent of the symposium is to broaden students’ and postdoctoral appointees’ expertise and to prepare them for careers in the sciences. The event will take place on August 6-7 in 2003. For more information about the symposium, see the website at <http://set.lanl.gov/symposium>.

Student Events

Student events are posted in the following places:

Student News, Student Views

SN,SV is an electronic newsletter that is distributed to students on the student list serv. To add your student’s name to the list serv, please send a request to eramirez@lanl.gov.

Work/Life Calendar

The Work/Life Calendar is located off the LANL internal homepage at <http://DominoApp.lanl.gov/lanl/lanlevents.nsf/Work/Life>.

Newsbulletin

The Newbulletin is found on the LANL homepage. To find events, go to <http://www.lanl.gov/orgs/pa/newsbulletin/2003/02/13/> and click on the left on calendar.

LANL Events Calendar

The events calendar is found on the LANL homepage (<http://int.lanl.gov/>). Mentor, division-liaison, and student activities are listed.

Summary

This handbook is designed to provide essential tools for creating a highly effective education and work experience for the mentor, liaison, and student. The handbook outlines the objectives and skills necessary to create a positive and mutually meaningful experience for students, liaisons, and mentors. It also contains the necessary forms required to prepare for this relationship.
